

Permeable Paver Project Checklist

You will be required to provide a copy of the project proposal/estimate provided by your contractor as part of your application.

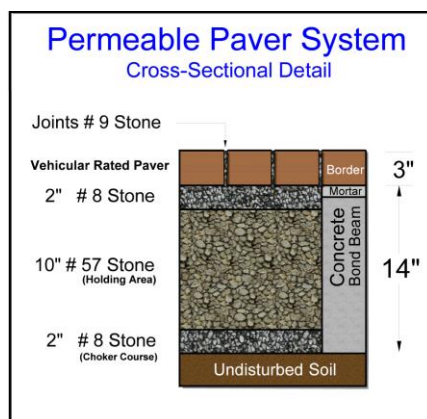

Permeable Pavement Minimum Requirements:

- Installed according to MDE Ch.5 Guidelines
 - Minimum paver area of 100 square feet
 - Installer must have ICPI certification
- Cannot treat additional impervious surfaces (only footprint of the paver area)

For each Permeable Paver project please ensure the contractor estimate includes the following:

- Size of Permeable Pavement (minimum is 100 ft²):
- Are you removing an impervious surface prior to installation?
- How many inches of rain is your Permeable Pavement designed to treat?
 - 1" or
 - 1.25"
- Cost of Permeable Pavement:
- Was an infiltration test conducted?
 - If so, what was the rate?
- Does your contractor estimate include a profile view showing both depth of the practice and gravel media?
