Rainwater Harvesting Projects: Contractor Estimate Checklist

You will be required to provide a copy of the project proposal/estimate provided by your contractor as part of your application.

Rainwater Harvesting Minimum Requirements:

- Minimum gallons stored: 250 for Single Family Home; 100 for Townhouse
- Must treat impervious surfaces from rooftops

For each Rainwater Harvesting project please ensure the contractor's estimate includes the following:

- ☐ **Impervious area treated** by Rainwater Harvesting in Square Feet:
- ☐ **Cost** of rainwater harvesting:
- ☐ Which of the following are you installing?
  - Rain barrels
  - Cisterns
- ☐ How many are you installing?
- ☐ What is the **capacity** (in gallons) of each?
- ☐ **Total gallons of rainwater harvesting** (minimum is 250 gallons for SFH and 100 gallons for townhouse):
