Stormwater Planter Projects: Contractor Estimate Checklist

You will be required to provide a copy of the project proposal/estimate provided by your contractor as part of your application.

Stormwater Planter Minimum Requirements:

- Must treat impervious surfaces
- Must be sized appropriately
- Plants are a minimum of 75% native to the Chesapeake Bay region

For each Stormwater Planter project please ensure the contractor's estimate includes the following:

- ☐ **Impervious area** (roof runoff) **treated** by Stormwater Planter in Sq.Ft. :
- ☐ **Project Cost**:
- ☐ What are the **dimensions** of the planter?
- ☐ What is the **ponding depth** of the planter?
- ☐ Where is the **overflow**?
- ☐ **Location** where the SW Planter will be installed should be clearly shown or described. (example: Front right downspout by garage, or a picture of the location)
