Conservation Landscaping Projects: Contractor Estimate Check List

You will be required to provide a copy of the project proposal/estimate provided by your contractor as part of your application.

Project Requirements for Conservation Landscaping:

- Minimum 150 square feet per project area for Single Family homes and 75 square feet for Townhomes (you may combine areas to reach the total and be considered for reimbursement as ONE project)
- 6" soil de-compaction, 2" soil amendment tilled into de-compacted soil
- Must be planted with at least 75% native plants
- Cannot contain plants invasive to Maryland
- Projects that treat impervious surfaces **and** have 2"-3" of ponding are considered for the $3,000 reimbursement tier and is eligible to receive credit towards the Watershed Protection Fee (WPF).
- If the project does not treat impervious **and** have ponding it will be considered for $2,000 reimbursement and no WPF credit.

For each Conservation Landscaping project please ensure the contractor estimate includes the following:

- ☐ Does your Conservation Landscaping **treat impervious surfaces**?
  - If yes, how much:
- ☐ Does this Conservation Landscaping have **ponding**?
  - If yes, what is the depth?
- ☐ Which of the following is your Conservation Landscaping addressing:
  - Turf Grass removal
  - Invasive Species Removal
  - Erosion Control
- ☐ What is the **project cost**:
- ☐ What is the **size** of the Conservation Landscape? (Minimum requirement is 150 ft2 for SFH or 75ft2 for TH):
- ☐ **A clear picture or description of the location** where the project is located. (Include detailed written explanation or aerial photo as a separate attachment if needed)
